OVER AC WIRING

WD-200 Powerline Ethernet Bridge

- HomePlug 1.0.1 compatible
- Up to 200Mbps data rate on the Powerline
- Effective Data Rate up to 80Mbps throughput
- 10/100 Mbps Ethernet / Fast Ethernet interface connection
- Plug and Play
- Peer to Peer Networking . 56 bit Data Encryption Security
- Support QAM 256/64/16, DQPSK, DBPSK and ROBO modulation

The powerline network series products developed by WonderTek represent a new and innovative solution for data communication and networking solution. The unique technology offers users a wide range of networking options by using powerline technology.

WonderTek created LechenTek plc platform to support rapid, cost-effective installation of the network service. It uses the existing powerline as data transmission media to guide the home networking into the house, you get the instant network access in the family room, bedroom, and kitchen or anywhere you can find an outlet.

The 200Mbps solution provides the higher speed internet connection with this much efficiency broadband transmission, you can enjoy and share the digital media without additional cable.

It provides the best networking solution for the SOHO office and Home application and makes it easy for new innovative applications to add advanced powerline voice, video and data capabilities to the devices.
